Contents

CHAPTER 1 History and Different Materials Used in the Past and Present 1

History of Ossiculoplasty 1
Materials Used at Present 3
Materials for Ossiculoplasty 3

CHAPTER 2 Anatomy and Mechanism of Hearing 14

Anatomy of Middle Ear 14
Mechanism of Hearing and Pathophysiology 23

CHAPTER 3 Etiology and Factors Affecting the Result of Ossiculoplasty 26

Etiology 26
Factors Affecting the Success/Result of Ossiculoplasty 26
Defining Success 32

CHAPTER 4 Radiological Correlation with Anatomy 33

High Resolution Computed Tomography Temporal Bone 33

CHAPTER 5 Basic Situations 38

Introduction 38

CHAPTER 6 Common Otosurgical Procedures in Ossiculoplasty 39

Surgical Approaches 39
Canaloplasty 48
Harvesting Tragal, Conchal/Floor Cartilage 51
Harvesting the Perichondrium or Periosteum 54
Trimming the Thickness of Cartilage 55
Posterior/Superior Canal Wall Reconstruction 58
Reshaping of Incus as Interposition Graft 62

Cartilage Graft as Columella Graft Between Stapes/Footplate and Annulus 70
Titanium Angular Prosthesis 71
Titanium Partial Ossicular Replacement Prosthesis/
Total Ossicular Replacement Prosthesis 72
Cartilage Shoe for Two Point Stabilization 77
Important Points to be Kept in Mind 79

CHAPTER 7 Basic Situation I: Malleus with Stapes 81

Malleus and Stapes with Incus Present 81
Malleus and Stapes with Incus Missing/Unusable 105

CHAPTER 8 Basic Situation II: Malleus with Mobile Footplate 146

Introduction 146
Malleus and Mobile Footplate with Incus Present 147
Malleus and Mobile Footplate with Incus Missing/Unusable 158

CHAPTER 9 Basic Situation II: Malleus with Fixed Footplate 184

Introduction 184
Intact Tympanic Membrane with Usable Incus 184
Intact Tympanic Membrane with Incus Missing 202
Perforation in Tympanic Membrane with Usable Incus 205
Perforation in Tympanic Membrane with Unusable Incus 212

CHAPTER 10 Basic Situation III: Only Stapes 216

Introduction 216
Only Mobile Stapes 216
Only Mobile Footplate 223
Only Fixed Footplate 228

CHAPTER 11 Tympanosclerosis 231

Introduction 231
Histology 231
Causes 231
Classification 231
Treatment 232

CHAPTER 12 Revision Ossiculoplasty 247

Introduction 247
Homologous Incus in Place of Teflon Total Ossicular Replacement Prosthesis 247
Autologous Incus Reused as Interposition Graft 250
Tragal Cartilage Used as a Boomerang-Shaped Graft 253
Titanium Total Ossicular Replacement Prosthesis in Place of Gold Implant 258

CHAPTER 13 Endoscopic Ossiculoplasty 260

Introduction 260
Advantages 260
Disadvantages 260
Surgical Importance 261
