Contents

Section 1: Cornea and Ocular Surface

1. Dry Eye Evaluation **3**

Rohit Shetty, Luci Kaweri, Krishna Poojita Vunnava

- Tests for Tear Film Analysis 3
- History and Symptoms 4

2. Anterior Segment Optical Coherence Tomography in Cornea and Refractive Surgery **15**

Tarun Arora, Vijay Sharma, Rajesh Sinha, Jeewan S Titiyal

- Principle 15
- Procedure 16
- Indications 16
- Advantages 21
- Limitations 23

3. Corneal Topography: Newer Horizons **25**

Vijay Sharma, Tarun Arora, Saurabh Verma, Rajesh Sinha

- Pentacam 26

4. Specular Microscopy **40**

Tarun Arora, Vijay Sharma, Neha Midha, Rajesh Sinha

- Principle 40
- Procedure 41
- Analysis 41
- Indications 42
- Advantages 43
- Interpretation of Readings 43
- Limitations 44

5. Confocal Microscopy **46**

Abhishek Dave, Ankit Singh Tomar, Tarun Arora

- Principle 46
- Confocal Systems for Clinical Use 48
- Procedure of Confocal Microscopy 49
- Confocal Microscopy of Normal Cornea 49
- Clinical Confocal Microscopy 53

- Infective Keratitis 53
- Corneal Dystrophies 54
- Refractive Surgery 55
- Keratoconus and Collagen Cross Linking 56
- Ocular Surface Disorders 56
- Corneal Grafts 57
- Other Corneal Diseases 57
- Corneal Deposits 58
- Other Clinical Uses 58

6. Corneal Biomechanics: Ocular Response Analyzer and Dynamic Scheimpflug Imaging 61

Prafulla K Maharana, Vaishali G Rai

- Principle 62
- Indications 68
- Contraindications 68
- Advantage 68
- Disadvantages 69
- Review of Literature 69

Section 2: Lens

7. Biometry 79

Manpreet Kaur, Archita Singh, Saurabh Verma, Talvir Sidhu

- Axial Length 79
- Keratometry 85

8. Wavefront Analysis Systems 92

Manpreet Kaur, Roshan T, Saurabh Verma, Jeewan S Titiyal

- Principle 92
- Specifications of iTrace 94
- Procedure 95
- Data Graphs with iTrace 96

Section 3: Glaucoma

9. Scanning Laser Polarimetry 107

Tanuj Dada, Reetika Sharma, Talvir Sidhu, Neha Midha

- Principle of Scanning Laser Polarimetry 107
- Generations of Scanning Laser Polarimetry and Calculation of Birefringence 108
- Special Scenarios 113
- Limitations 115

10. Role of OCT in Glaucoma Diagnosis and Progression (Cirrus SDOCT) 120
Sushmita Kaushik, Natasha Gautam, SS Pandav

- Time Domain OCT 122
- Spectral Domain OCT 123
- Cirrus OCT 124
- OCT and Glaucoma Detection 125
- Detection of Glaucoma Progression 126

11. Imaging the Retinal Nerve Fiber Layer with Spectralis SDOCT 140
Vinay Nangia

- Spectralis OCT 140
- Imaging the RNFL 141
- Appearance of the Retinal Nerve Fiber Layer 142
- Clinical Cases 146

12. Dynamic Applanation Procedures 156
Sathi Devi AV

- Ocular Response Analyzer 157
- Corneal Visualization Scheimpflug Technology 163

13. Frequency Doubling Perimetry and Short Wavelength Automated Perimetry 170
Sushmitha S, Vasanth TM , Ronnie Jacob George

Frequency Doubling Perimetry 170

- Principle 170
- Frequency Doubling Technology Perimetry 170
- Screening Strategy 171
- Full Threshold Strategy 172
- Effect of Cataract on FDT 173
- Interpretation of FDP with Screening Strategy 173
- Advantages of FDT Perimetry 173
- Disadvantages of FDT Perimetry 174
- Humphrey Matrix Perimetry 174
- Screening Strategy 174
- Threshold Strategy 174

Short Wavelength Automated Perimetry (SWAP) 178

- Principle 178
- Full Threshold SWAP 179
- SITA SWAP 179
- Comparison of Full Threshold SWAP and SITA SWAP 180
- Learning Effect 181
- Effect of Cataract on SWAP 182

- SWAP in Other Ocular Disorders 182
- Advantages 182
- Disadvantages 183

14. Ultrasound Biomicroscopy in Glaucoma 186
Tanuj Dada, Dewang Angmo, Ankit Singh Tomar, Talvir Sidhu

- Principle 186
- Technique 187
- Normal Ocular Structures 187
- Clinical Uses in Glaucoma 189
- Quantitative Ultrasound Biomicroscopy 204
- Quantification of the Anterior Chamber Angle 206
- Effects of Drugs 207
- Effects of Surgery 208
- Comparison with Anterior Segment OCT 209
- Limitations 209

15. OCT—Angiography and Glaucoma 215
Elisa D'Alessandro, Kirsten Hoskens, Kaweh Mansouri

16. Contact Lens Sensor for IOP Monitoring 222
Shibal Bhartiya, Parul Ichhpujani, Talvir Sidhu

- Principle 222
- Limitation 225
- Review of Literature 226

17. Anterior Segment OCT in Glaucoma 229
Dewang Angmo, Monisha E Nongpiur, Talvir Sidhu, Ankit Singh Tomar, Tanuj Dada

- Clinical Uses 230
- Technique 231
- ASOCT (Visante and CASIA) Measurement and Analysis 231
- Applications of ASOCT in 237
- Limitations 244
- Future/Upcoming Technologies 244

18. Heidelberg Retinal Tomography 247
Tanuj Dada, Neha Midha, Ajay Sharma, Ramanjit Sihota

- Principle 247
- Operation of the Heidelberg Retinal Tomograph II 250
- Moorfield's Regression Analysis and Other Discriminant Formulas 253
- Current Role in Diagnosis 255
- Advantages 255
- Disadvantages 256
- Types of Printout 256
- Interpretation of the Printout 258

- Interpretation of a Single Printout 263
- Monitoring Progression 266
- Summary of HRT Literature 268
- Literature Summary on HRT III 271

Section 4: Imaging

19. Orbital Imaging: Newer Perspectives **281**
Sanjay Sharma, Abanti Das

- Intraconal 282
- Muscle Cone 286
- Extraconal Space 288
- Globe 294
- Choroidal Hemangioma 299
- Congenital Anomalies 300

20. Adaptive Optics **303**
Devanshi Bhanushali, Aditya Modi, Rohit Shetty

- Principle of Adaptive Optics 303
- Image Acquisition 305
- Applications 307

Self-assessment Quiz *311*
Index *333*
