Contents

1. Embryology **1**

Sepehr Sani, Joshua T Wewel, Richard W Byrne

- Structure and Development of Limbic System *1*

2. Anatomy **8**

Sepehr Sani

- Temporal Lobe *9*
- Insula *21*
- Sylvian Fissure and Opercular Anatomy *24*

3. Approaches to the Mesial Temporal Lobe for Epilepsy **26**

Sepehr Sani, Joshua T Wewel, Richard W Byrne

- Surgical Anatomy *26*
- Overview of the Relationship between the Mesial Temporal Lobe, the Basal Cisterns, and their Contents *32*
- Anterior Temporal Lobectomy with Amygdalohippocampectomy *35*
- Selective Amygdalohippocampectomy *45*
- Transsylvian Approach to Amygdalohippocampectomy *47*
- Case 1: Right-Sided Amygdala and Hippocampus Low Grade Glioma *48*
- Case 2: Left Uncus Cavernous Malformation *53*

4. Supracerebellar Transtentorial Approach to Limbic Tumors **57**

Demi Dawkins, Ilhan Aydin, Kyle Swanson, Mustafa K Baskaya

- History *57*
- Anatomy *57*
- Indications *58*
- Contraindications *60*
- Description of the Approach *60*
- Risks and Pitfalls *69*

5. Surgical Approaches to the Insula **71**

Sepehr Sani, Richard W Byrne

- Surgical Anatomy of the Insula *71*
- Choice of Operative Approach *74*
- Case 1: Left Anterosuperior Insular Low-Grade Glioma *75*
- Case 2: Left Insular-Subfrontal Low-Grade Glioma; Combined Transsylvian/Subfrontal-Transcortical Approach *78*
- Case 3: Left Posterior Insula Cavernoma (Transsylvian Approach) *82*

6. Occipital Interhemispheric Approach to Limbic Tumors **87**
Vikas K Parmar, Ilhan Aydin, Emel Avci, Mustafa K Baskaya
- History *87*
- Anatomy *87*
- Indications/Contraindications for Approach *89*
- Risks and Pitfalls *95*

7. Surgical Approaches and Strategies in Lesions of the Cingulate Gyrus **99**
Richard W Byrne
- Surgical Approaches *99*
- Case 1: Left Frontal-Cingulate Grade II Mixed Olio-astrocytoma; Approached via Left Frontal Interhemispheric Corridor *100*

8. Brain Mapping during Surgery of the Limbic System **107**
Sepehr Sani, Carter S Gerard, Richard W Byrne
- Indications *107*
- Integrating with Functional Imaging *108*
- Preoperative Preparation *108*
- Epilepsy Specific Techniques in Eloquent Cortex *115*

9. Surgery for Giant and Unusual Tumors of the Limbic System **120**
Sahin Hanalioglu, Ilhan Aydin, Ulas Cikla, Mustafa K Baskaya
- Mediobasal Temporal Tumors *123*
- Cingulate Gyrus Tumors *130*

10. Surgery for Vascular Malformations of the Limbic System **140**
Sahin Hanalioglu, Ilhan Aydin, Hakan Ozalp, Mustafa K Baskaya
- An Overview of Vascular Anatomy of the Limbic System *140*
- Arteriovenous Malformations *143*
- Anatomical Classifications of Limbic Arteriovenous Malformations *144*
- Clinical Features of Limbic Arteriovenous Malformations *145*
- Surgery of Limbic Arteriovenous Malformations: Surgical Approaches *145*
- Cavernous Malformations *153*
- Limbic Cavernous Malformations: Anatomic Distribution and Clinical Features *154*
- Surgery of Limbic Cavernous Malformations *155*
