CONTENTS

Section 1 : General Principles

1. Introduction to Rehabilitation Medicine **3**

- What is Rehabilitation? 4
- Three Phases of Medicine 4
- Medical Rehabilitation 5
- Preventive Rehabilitation 7
- Impairment, Disability, and Handicap 9
- Goals of Rehabilitation 13
- Sociovocational Rehabilitation 14

2. The Rehabilitation Team **16**

- Medical 16
- Paramedical 17
- Sociovocational 18
- Rehabilitation Team 18
- Other Team Members 19
- Delivery of Rehabilitation Care 25

3. Community-based Rehabilitation **29**

- Criteria 31
- Aspects of CBR 32
- Members of the CBR Team 32
- Role of the Rehabilitation Professional in CBR 33
- Models of CBR 33

4. Sociolegal Aspects of Rehabilitation **34**

- Legislation in India 34
- Constitutional Responsibilities in India 35
- The Rights of Persons with Disabilities Act 36
- Concessions and Subsidies Given to the Handicapped by the Ministry of Social Justice and Empowerment, Government of India 40
- Other Schemes 42
- Disability Evaluation 45
- Practical Difficulties Experienced in Disability Evaluation 48

5. Architectural Barriers **50**

- Ecology of Housing 51
- Architectural Design Features and their Accessibility 53
- Space Enclosures 56
- Public Buildings 57
- Furniture Modifications for the Disabled 61
- Visual Disability and the Environment 62
- Auditory Disability and the Environment 63

6. Activities of Daily Living **65**
- ADL Grouping 66
- Assessment 66
- ADL Activities 68
- ADL Training 73

Section 2 : Therapeutic Management

7. Therapeutic Exercises and Techniques **79**
- Classification of Exercises 80
- Coordination Exercises 81
- Balance Training 84
- Relaxation Exercises and Management of Spasticity 87
- Re-education Exercises 90
- Strengthening Exercises 92
- Mobilization Exercises 98
- Therapeutic Exercises for Pain 100
- Endurance Exercises 102
- Massage Techniques 104
- Alternative Healing Techniques 105

8. Gait Analysis and Training **107**
- Gait Cycle 107
- Studying Normal Human Locomotion 109
- Gait Analysis 109
- Energy Expenditure 111
- Independent Walking 111
- Pathological Gaits 112
- Gait Training 116

9. Hand Function and Occupational Therapy **120**
- Major Functions of the Hand 120
- The Parts of the Hand Important to Function 122
- The Disabled Hand 125
- Occupational Therapy 126
- Management of the Disabled Hand 129

10. Management of Communication Impairment **131**
- Communication 131
- Speech 133
- Communication for the Hearing Impaired 140
- Speech Therapy 144
- Dysphagia 146

11. Management of Behavioral and Learning Problems **153**
- Behavioral Medicine 153
- Psychiatric Problems in the Disabled 154
- Behavioral Disorders in Children 157
- Management of Behavior Disorders 158
- Mental Retardation (Intellectual Disability) 160

- Special Education 161
- Sensory Integration 164
- Sensory Processing Disorders 166

12. Orthotics **171**

- General Principles of Orthosis 171
- Biomechanics of Orthosis 173
- Classification 173
- Material and Fabrication for Lower Limb Orthoses 177
- Calipers 178
- Foot Orthoses 179
- Ankle-Foot Orthosis 183
- Knee-Ankle-Foot Orthosis 186
- Hip-Knee-Ankle-Foot Orthosis 188
- Functional Electrical Stimulation 190
- Spinal Orthosis 191
- Upper Limb Orthoses 198

13. Prosthetics **205**

- Causes of Amputation 205
- General Principles of Amputation Surgery 206
- Upper Limb Amputation 209
- Lower Limb Amputation 212
- Rehabilitation of Amputees 215
- Prosthetics 221
- Classification of Prostheses 222
- Upper Limb Prosthetics 225
- Above Elbow Prosthesis 226
- Below Elbow Prosthesis 230
- Myoelectric Prosthesis 230
- Prosthesis for the Lower Extremity 234
- Syme's Prosthesis 236
- Below Knee Prosthesis 237
- Above Knee Prosthesis for Transfemoral Amputation 238
- Prosthesis for Hip Disarticulation 241
- Recent Advances in Prosthetic Fitting 243

14. Mobility Aids **245**

- Functions of Mobility Aids 245
- Prescription of Aids 246
- Parallel Bars 246
- Walking Frames 246
- Walking Aids 249
- Crutches 250
- Scooting Board 252
- Wheelchair 253
- Tricycles 261

15. Vocational Rehabilitation **262**

- Vocational Rehabilitation 262
- Vocational Rehabilitation Team 263
- Models of Employment 267

16. Physical Agents in Rehabilitation **269**
- Physical Agents 269
- Cryotherapy (Cold Pack Application) 269
- Therapeutic Heat 272
- Deep Heat 275
- Ultrasound Therapy 278
- Light Radiation 281
- Biofeedback 290
- Mechanical Methods of Treatment 293

17. Surgery in Rehabilitation **297**
- Causes of Deformities 297
- Prevention 298
- Management of Deformities 299
- Common Deformities of the Lower Limb 299
- Tendon Transfers 307
- Torticollis 309
- Scoliosis 310
- Total Knee Replacement 311
- Neurosurgery in Rehabilitation 312

18. Frontiers of Rehabilitation **316**
- CAD and CAM in Prosthetics 316
- Robotic Exoskeletons 320
- Virtual Rehabilitation 322
- Osseointegration Prosthesis 323
- Bionic Arms 324
- Eye Tracking and Voice-activated Environmental Control Systems and Communication Devices 327
- Newer Wheelchairs 328

Section 3 : Management of Special Populations

19. Pain and Spasticity **335**
- Etiology 336
- Classification 336
- Theories of Pain 339
- Chronic Pain 342
- Evaluation of the Client with Pain 342
- Pain Management 345
- Spasticity 346
- Management 348
- Interventional Physiatry 352

20. Hereditary and Congenital Disorders **354**
- Malformation of the Central Nervous System 354
- Hydrocephalus 357
- Congenital Malformation of Bones and Joints 359
- Congenital Deformities of Skull 367
- Mongolism (Down's Syndrome) 368

21. Ergonomics and Musculoskeletal Disorders 371
- Repetitive Strain Injury 371
- Industrial Ergonomics 373
- Low Back Pain 378
- Neck Pain 379
- Tennis Elbow 381
- Golfer's Elbow 382
- Shoulder Pain 383

22. Sports and Fitness 386
- Classification of Sports 386
- Sports-specific Injury 387
- Sports Injury Rehabilitation 387
- Training for the Sport 393
- Sports for Persons with Disability 395
- Exercises for Fitness 396
- Yoga 401

23. Geriatric Rehabilitation 405
- Typical Problems in the Elderly 406
- Age-related Changes in the Body 406
- Common Complaints Among Geriatric Population 408
- Assessment 409
- Rehabilitation 409

Section 4 : Major Conditions Needing Rehabilitation

24. Cerebral Palsy 413
- Etiology 413
- Neonatal Reflexes 419
- Aims of Rehabilitation 421
- Principles of Treatment 421
- Management 422
- Common Deformities in Cerebral Palsy 426
- Multiple Disability 428
- Learning Deficits and Behavioral Modification 429

25. Poliomyelitis 432
- Etiology 432
- Clinical Manifestation 433
- Prevention 434
- Examination 434
- Deformities in Polio 435
- Treatment 437
- Vocational Rehabilitation 439

26. Brain Injury 442
- Classification 442
- Rehabilitation Assessment 448
- Treatment 451
- Rehabilitation 452

27. Stroke 457
- Etiopathogenesis 457
- Rehabilitation 459
- Rehabilitation Management 462
- Occupational Therapy 466

28. Peripheral Nerve Injuries 469
- Classification 469
- Hansen's Disease 472
- Erb's Palsy 476
- Mononeuropathy 477
- Ulnar Nerve Paralysis 478
- Median Nerve Paralysis 478
- Radial Nerve Paralysis 480
- Facial Paralysis (VII Nerve Palsy) 481
- Foot Drop 483
- Peripheral Neuropathy 483

29. Myopathy 485
- Classification 485
- Diagnosis 486
- Clinical Examination 486
- Muscular Dystrophies 487
- Duchenne Muscular Dystrophy 487
- Becker Muscular Dystrophy 490
- Limb-Girdle Muscular Dystrophy 490
- Facioscapulohumeral Muscular Dystrophy 491
- Nondystrophic Myopathies 491
- Rehabilitation (Common to All Myopathies) 492

30. Spinal Cord Injury 496
- Staging 497
- Management 501
- Rehabilitation 502
- The Bladder 510
- Management 511
- Management of Bowels 513
- Sexual Dysfunction 514
- Complications in Spinal Cord Injury 516
- Autonomic Dysreflexia 519

31. Movement Disorders 523
- Multiple Sclerosis 523
- Parkinsonism 526
- Other Movement Disorders 530
- Cerebellar Diseases 530
- Motor Neuron Disease 531

32. Cardiopulmonary Rehabilitation 534
- Cardiac Rehabilitation 534
- Inpatient Rehabilitation Program 537
- Pulmonary Rehabilitation 539

- Classification of Functional Pulmonary Disability 540
- Conditions Needing Pulmonary Rehabilitation 540
- Postural Drainage 548

33. Vascular and Hematological Conditions 551

- Hemophilia 551
- Ischemia of the Upper Limb 553
- Arteriosclerosis Obliterans 553
- Acute Arterial Occlusion 556
- Thromboangiitis Obliterans (Buerger's Disease) 557
- Varicose Veins 557
- Deep Vein Thrombosis 557
- Lymphedema 559

34. Burns 561

- Assessment 561
- Causes 562
- Classification 562
- Pathology and Healing 562
- Complications of Burns 563
- Management in the Acute Phase 563
- Rehabilitation 564

35. Arthritis 570

- Classification 570
- Rheumatoid Arthritis 571
- Juvenile Rheumatoid Arthritis 577
- Systemic Lupus Erythematosus 578
- Polymyositis and Dermatomyositis 579
- Degenerative Arthropathies—Osteoarthritis 580
- Seronegative Spondylarthropathies 582
- Ankylosing Spondylitis 583
- Diffuse Idiopathic Skeletal Hyperostosis 585
- Psoriatic Arthritis 585
- Reiter's Syndrome 586

36. Fractures 588

- Types of Fracture 588
- Management of Fractures 590
- Fracture Spine 594
- Pathological Fractures 595
- Osteoporosis 595
- Complications after a Fracture 599
- Myositis Ossificans 600
- Reflex Sympathetic Dystrophy 601
- Volkmann's Ischemic Contracture 602
- Avascular Necrosis 603

Index 605
